

# ARTICLE SAYS PHILCO RADIO SALES DOUBLED

BY CHAPIN HOSKINS

(From *Forbes Magazine*, September issue)

at any previous time in the history of the radio business. That in an industry notorious for its sins against the laws of supply and demand, one in which companies employ thousands of workers for two or three months and then, because of overproduction, throw these same thousands out of work for the rest of the year, Philco has never once shut down because of overproduction.

The amazing fact that Philco has been selling over three times as many sets as a year ago is directly the result of the fact that the company set out to sell 1,000,000 radios in the season—June 1 to December 31.

They had the choice of agreeing with the others that business was bad and they could not sell radios in 1931, or saying that because business was bad, they must give the public so much value for their money that will buy three times as many radios as were bought last year. They chose the latter.

The plan works out as follows: Sell three times as many radios and lower cost per set about 10 per cent; lower net profit per set 66 per cent and still make the same amount of net profit that was made last year; lower the dealers discount, but give him such a value to sell that his selling costs will be lowered to take care of it.

Now, as I have said before, this is not a new idea, but in all my experience with manufacturers I have never seen a plan that has worked so perfect. In fact, at the end of the first three months they are 34 per cent ahead of their quota of 1,000,000 sets.

That Philco business this year is running more than 100 per cent ahead of last year in dollars and cents and 300 per cent ahead in number of sets made and sold by their 12,000 retail dealers.

A stack of 90 Philco radio receiving sets, which was received Saturday by the Turner Radio company, 221 West Fourth street, is shown below. This is the second large shipment recently received by this firm to meet the demand for receivers.

## Tune Changes In Suit Over Piano

When Abraham Tishoff filed a complaint against Eusebio C. Tellez he said he had sold a player piano to the latter and he had refused to pay for it.

But when Tellez answered the charge the tune changed somewhat. Tellez said he was just renting it and had the right to stop paying whenever he wanted to.

The Brea Justice court decided in favor of Tellez and so Tishoff appealed to the superior court, still claiming there was \$270 due him. Today Superior Judge G. K. Scovel refused to dismiss the appeal and the master was to be agreed upon at 1:30 p. m.

Although Tellez said he was just renting the piano, his answer admitted that if he had paid \$480 he could have stopped and the music box would have been his.

## :- SOCIETY :-

### Santa Anans Are Home From Northern Trip

Mr. and Mrs. M. R. Kellogg have returned to their home, 408 Roe drive, following an enjoyable two weeks' tour of northern California, Oregon and Washington. They spent some time in San Francisco before continuing on their way to Crater Lake and Portland, Ore. They were especially impressed with the abundance of fruit in the apple and pear orchards.

In Wenatchee, Wash., Mr. and Mrs. Kellogg visited with their son-in-law and daughter, Mr. and Mrs. Robert Williamson, and little daughter, Reta. They returned via the Redwood highway.

Kansas Reunion Held In Chapman Home

A little group of friends who formerly made their homes in Westmoreland, Kan., held a pleasant reunion yesterday afternoon in the home of Mr. and Mrs. A. E. Chapman, 510 South Flower street.

Guests included Mr. and Mrs. Bea Cave and little daughter, now of San Pedro, and Mr. and Mrs. Thomas Cave and young son, lately of Pittsburgh, Kan., but now of Hollywood. Mrs. Bea Cave will be remembered as Miss Myrtle Millward of this city.

The group plans to attend the Kansas picnic in Sycamore grove in Los Angeles this week.

### Pupil Recital

One of the pleasant affairs of the past week, combining recital and social features, was given in the home of Mr. and Mrs. W. A. Ritner on West Seventeenth street, when Miss Faye Stinson presented two of her talented pupils in an expression recital. The Misses Helen Betty Ritner, daughter of the home, and Dorothy Leonard, daughter of Mr. and Mrs. F. H. Leonard of Tustin, were featured on the program, which was one of special enjoyment to the guests.

Everett Claypool of Orange, was guest artist, playing several numbers on his piano-accordion. There were many friends assembled for the program, and all admired the setting given by the use of golden glow and yellow and orchid papers. After the entertainment features, the Misses Ritner and Leonard assisted in the serving of punch and wafers.

The entire program was well-presented, and showed the effectiveness training given by Miss Stinson as well as the talents and versatility of the two young artists. Perhaps Miss Leonard's final number, "Imitating Sister", by Gamill, aroused the most enthusiasm by reason of her clever pantomime work and characterization. Miss Ritner's child impersonation in the pathetic monologue, "An Afternoon in a Hospital," was especially well done, sharing interest with "At the Ferry" in point of excellence.

Other program features, each

Mr. and Mrs. Frank Richardson spent Saturday evening in Long Beach. They were accompanied by George Richardson and Mrs. Thompson as Richardson.

Richard Sloane, son of Mr. and Mrs. M. L. Sloane, of Buena Park, who joined the U. S. Marines about a year ago, is stationed at San Pedro on the U. S. Texas flagship.

Richard has many warm friends in Orange and has been a frequent guest in homes here.

Miss Maxine Evans of Glendale, spent Labor Day with her grandparents, Mr. and Mrs. J. M. Morgan of 229 North Pine street.

Young program features, each

Mr. and Mrs. Frank Richardson spent Saturday evening in Long Beach. They were accompanied by George Richardson and Mrs. Thompson as Richardson.

**Swing Deposition  
In \$100,000 Suit  
Taken On Sept. 12**

The deposition of State Senator Ralph E. Swing, of San Bernardino, will be taken in connection with the \$100,000 libel suit brought against H. C. Head, Santa Ana attorney, by F. C. Finkle, engineer. The lawsuit grew out of statements made by Head during the campaign over the proposed bond issue for flood control work in Orange county two years ago.

Notice of the taking of the deposition was filed today in the office of County Clerk J. M. Backs. It will be taken in behalf of Finkle, on September 12 at 10 a. m.

in San Bernardino, before Grace E. Garrett, notary public.

To date two other depositions have been taken in the case, each principal having secured the depositions of the other. According to an affidavit filed by Head, the deposition made by Finkle has not been signed although several notices have been sent to the engineer asking him to place his name upon it. Head's affidavit said he would object to setting the case for trial or any other proceedings in connection with it until the deposition is signed.

**ARRANGE INTERESTING  
WELCOME FOR "FROSH" AT  
S. A. JUNIOR COLLEGE**

Student president George Griffith, Sophomore president Charles Stehly, and L. L. Beeman, faculty chairman, and their committees have announced one of the most complete and entertaining "Frosh Week" programs that the Santa Ana junior college has put on during the 16 years of its existence. Beginning at 9 a. m. tomorrow, the college campus is to be entirely turned over to the new students for three full days, ending Friday afternoon with an informal dance in Andrews gymnasium.

Hospitality committees, made up of members of the Young Men's and Young Women's Christian associations, will welcome new students at the main entrance of the college all three days of the festivities. The members of these committees, made up of various departments of these organizations, will introduce themselves and assist in establishing a friendly feeling right from the start. Jack Crawford and Elizabeth Rinkler, "Y" presidents, are directing this work. The Press club, under the direction of Paul Wright, will act as a greeting committee, registering all students and giving each an identification card and a copy of the college paper, El Don.

At 10 o'clock Wednesday morning an assembly will be held in the high school auditorium, with L. L. Beeman, chairman of the faculty "Frosh Week" committee, presiding. D. K. Hammond, president of the college, will deliver the welcoming address, and the program will include short talks by Dean McKee Fisk, Dean of Women Eleanor Northcross and introduction of faculty members and the president of the Associated Students. Frances Larabee will deliver the alumni address for women and George Warmer will speak for the men of the alumni.

The musical program will include violin numbers by Mary Mateer and Peggy Warburton, accompanied by Alan Revill, Jaycees musical instructor, and a group of soloists by Robert Brown, baritone.

A lunch, free to all new students and new faculty members, will be served in the cafeteria at noon under the supervision of Hazel Hushman, president of the Associated Women Students. The Brotherhood of Bachelors will have charge of the ushering during the noon hour.

**Schedule Examinations**

At 1 p. m. all new students will be required to take the college aptitude examination. This test must be taken before any new

entrants will be allowed to register or be classified. Amos Hoenshel, psychology professor, will be in charge during this time.

All women students who are not taking the aptitude test will report to the gymnasium during the afternoon for a complete physical examination. Students will sign up at the desk in the hall for the time most convenient to them.

From 2 until 4 in the afternoon the Women's Athletic association is sponsoring an informal bridge tea in the "Y" but for those not taking the scheduled examinations.

The gymnasium plunge will be open at this time to all girls of the campus. Faculty advisors will be in their respective offices until 4:30 p. m. to answer any questions, explain courses, requirements for graduation, the rules of the school, and to assist students in making out their programs.

All who have filled out application blanks and who have had their credentials sent to the office will be assigned an advisor immediately.

The program for Thursday will open with an assembly in the high school auditorium at 10 a. m., with President Hammond presiding.

H. O. Russell, instructor in physics, will speak on "The Differences Between High School and College," and E. M. Nealey, philosophy and psychology professor, will deliver a short talk on "College Ethics." Dean Fisk will explain some of the college rules and traditions at this gathering, which will be followed immediately by an inspection tour of the buildings and campus.

**English Test**

At 1 p. m. all entering students who have not done so previously will be required to take the English examination. Mrs. Eleanor Northcross will be in charge of this group, each of whom must pay a 50 cent fee in the business office before the two-hour test.

Following the physical examinations for men during the afternoon hours the Moabs under Helen Campbell and the Junior Lions under Jim Thompson will hold an informal luncheon for them in the "Y" but beginning at 3:15. The gymnasium plunge will be open all afternoon.

The Friday morning assembly at 10 o'clock will be entirely in charge of the students of the college. George Griffith, Associated Students president, will preside and introduce members of the executive board for the coming semester. Charles Stehly, sophomore president, will have charge of the distribution of frosh pins and "bibles" at this time and various members of the coaching staff of the college will deliver short addresses on prospects during the year's sport campaigns. Leell Slaback, talented Don accordion performer, will give a group of numbers during this program.

The grand climax to the three "Frosh Days" will be held Friday afternoon from 3 to 6 with an informal dance in Andrews gymnasium.

Committees working under Marjorie Arundell, social chairman of the executive board, will have charge of this event, which will be thrown open to all students of the college.

Throughout the program the Sisterhood of Spinsters and the Society of Longfellow, headed by Nelle Grafton and Charles Greenleaf, respectively, will maintain information desks in the halls to assist everyone new to the campus.

**HUNTINGTON BEACH**

Mr. and Mrs. William Frazer and daughter have returned from a pleasant visit to Lake Arrowhead. Mr. Frazer is instructor in chemistry at the Huntington Beach union high school.

Miss Frances Hill and Miss Lillian Stout motored to Bakersfield to spend the week end with friends.

Mr. and Mrs. Fred Brooks have returned from Alameda, where they spent two weeks visiting friends.

The auxiliary of the American Legion entertained at Memorial hall Friday night at a party complimentary to Mrs. D. T. Johnson, who is leaving shortly for Wyoming to make her home. About 100 members were present. A program of music and readings was enjoyed, followed by cards. Later refreshments were served. Mrs. Johnson was presented with beautiful lounging pajamas.

**ITCHING TOES  
INSTANTLY RELIEVED**

Regardless of how badly your toes itch, burn, bleed, crack or blister,

McCoy's Toe Ointment will give you instant relief and more lasting results than any other preparation on the market. We sell it with a positive guarantee to give relief and to our knowledge it has never failed to relieve anyone who suffers from athlete's foot—a 75c jar will last for months. Ask about McCoy's Toe Ointment at any McCoy store—or postpaid to any address upon receipt of 75c.

**CONSTIPATION  
DISAPPEARS**

To regulate your bowels take McCoy's Liver Tablets because they

do not grip nor do they contain any calomel. They have a tonic

effect on the stomach, liver and bowels; they aid digestion, relieve

gas on the stomach, bad breath and torpid liver. They cause your

stomach and intestines to function properly. You will enjoy your

food and the world will look brighter the day you start using these

wonderful tablets. Priced 30c, 60c and \$1.00 box at all McCoy

stores.

## EMPLOYMENT IN SOUTHLAND HOLDS UP IN AUGUST WITH IMPROVEMENT NOT FAR OFF

Always the low point in business activity and statistical records during normal years, it is not surprising that August this year shows decreases in practically all lines. Indications are for improvement during the balance of the year.

Bank debts were lower than in July, or August 1930; building permits were less in both volume and value than during the previous month, or the same month last year. Postal receipts were under those of July of this year and August of last. Stock Exchange transactions were greater than during July.

Employment showed encouraging steadiness in all major industries except one, food products, which had its usual seasonal drop. Production in most major industries, also, was encouraging; wearing apparel, millinery and furniture feeling a beneficial effect from their Fall Market Weeks which offset the effect of unusually hot weather. Motion picture companies are getting under way with the year's programs, thus increasing activity; petroleum felt some good effects from current conditions in the national picture, while rubber factories were all working at about the level of last year's production figure with good prospects for the immediate future.

Agriculture experienced some improvement in market prices, thus promising better-than-expected returns to growers in proportion to volume of crops. Water commerce showed some improvement in several branches.

Employment

Due largely to normal seasonal decline in food packing industry, the Chamber of Commerce Index

Los Angeles, Calif.  
MUTUAL 2021

yields of many fruits normally harvested in August and later are very low. Grapes were also damaged by leaf hopper, and production is the lightest in several years.

Prices on dried fruits, with the exception of apricots, stiffened during the month. A feature in this line was the sell-out of the entire 1930 surplus of raisins held by the California Raisin Pool, and the promise of the Federal Farm Board to extend \$9,000,000 in funds to the raisin industry. This places raisins in a strong position, with surplus disposed of, and a light current crop. Growers are holding for 4c on Thompsons, and Muscats are very short. Advances to growers by the Control Board are the same as last year, 2 1/4c. Prunes are short in yield also, and the market is steady.

**Shipments Light**

The wine grape deal is not getting under way, and it is not expected that early shipments will bring satisfactory prices because they are arriving too early. It is estimated that the crop will run about 45,000 tons this year, a reduction of about 15,000 tons over last year.

Other fresh fruit shipments have been generally light this season so far, at prices far from satisfactory.

Canned fruit prices were named by packers during the past month, and are the lowest in several years. This has not stimulated heavy buying, however, and the jobbing trade is still taking supplies on a "hand-to-mouth" basis.

As the peach canning season draws to a close, it is apparent that the 9,000,000 case maximum will not be reached; the actual figure will be around 8,750,000 cases.

California oil field production showed a total which during the month of August fluctuated around the 250,000 barrel mark. Employment showed a very slight falling off compared with the month previous. One encouraging feature of the forced shutdown in mid-continent fields has been the increased sales of California gasoline in eastern seaboard markets with a consequent slight firming up in the prices. Local retail sales of gasoline have been slightly under those of July but are still running at a record pace. Definite merger reports concern two of California's prominent oil companies and if consummated, these deals should strengthen market showings of California petroleum products.

**Motion Pictures**  
Fred W. Beeson, Executive Vice President of the Motion Picture Producers' Association, reports: "The outlook for the motion picture industry is bright for September. Several of the studios are launching their ensuing year's program and activity this month promises to be greater than in any preceding month of the current year."

**Agriculture and Livestock**  
Generally lowered production of practically all major crops has resulted from the extremely hot weather experienced in all districts. As a result there will be few surpluses to worry about, and prices have stiffened somewhat. It is evident, too, that in spite of lower prices, producers will come through the year in much better shape than was expected earlier in the season. Field and orchard conditions are far from satisfactory, and water shortages are alarming in some sections. Almost every major crop is advanced, and harvest is generally about two weeks ahead of the usual schedule.

Under heavy competition from seasonal fruits which are selling at very low prices, California Valencia oranges eased off during the last week of the month, and shippers favor a reduction of movement to strengthen the situation. Demand is expected to pick up by the middle of the month, with decreasing supplies of other summer fruit. California has moved 70,462 cars of citrus fruits this year, as compared with 52,857 during the same period in 1930.

Deciduous fruit and grape crops have suffered severely from hot weather and water shortage and

harvests are the lightest in several years.

Prices on dried fruits, with the exception of apricots, stiffened during the month. A feature in this line was the sell-out of the entire 1930 surplus of raisins held by the California Raisin Pool, and the promise of the Federal Farm Board to extend \$9,000,000 in funds to the raisin industry. California oil field production showed a total which during the month of August fluctuated around the 250,000 barrel mark. Employment showed a very slight falling off compared with the month previous. One encouraging feature of the forced shutdown in mid-continent fields has been the increased sales of California gasoline in eastern seaboard markets with a consequent slight firming up in the prices. Local retail sales of gasoline have been slightly under those of July but are still running at a record pace. Definite merger reports concern two of California's prominent oil companies and if consummated, these deals should strengthen market showings of California petroleum products.

**Motion Pictures**  
Fred W. Beeson, Executive Vice President of the Motion Picture Producers' Association, reports: "The outlook for the motion picture industry is bright for September. Several of the studios are launching their ensuing year's program and activity this month promises to be greater than in any preceding month of the current year."

**Agriculture and Livestock**  
Generally lowered production of practically all major crops has resulted from the extremely hot weather experienced in all districts. As a result there will be few surpluses to worry about, and prices have stiffened somewhat. It is evident, too, that in spite of lower prices, producers will come through the year in much better shape than was expected earlier in the season. Field and orchard conditions are far from satisfactory, and water shortages are alarming in some sections. Almost every major crop is advanced, and harvest is generally about two weeks ahead of the usual schedule.

Under heavy competition from seasonal fruits which are selling at very low prices, California Valencia oranges eased off during the last week of the month, and shippers favor a reduction of movement to strengthen the situation. Demand is expected to pick up by the middle of the month, with decreasing supplies of other summer fruit. California has moved 70,462 cars of citrus fruits this year, as compared with 52,857 during the same period in 1930.

Deciduous fruit and grape crops have suffered severely from hot weather and water shortage and

harvests are the lightest in several years.

Prices on dried fruits, with the exception of apricots, stiffened during the month. A feature in this line was the sell-out of the entire 1930 surplus of raisins held by the California Raisin Pool, and the promise of the Federal Farm Board to extend \$9,000,000 in funds to the raisin industry. This places raisins in a strong position, with surplus disposed of, and a light current crop. Growers are holding for 4c on Thompsons, and Muscats are very short. Advances to growers by the Control Board are the same as last year, 2 1/4c. Prunes are short in yield also, and the market is steady.

**Shipments Light**

The wine grape deal is not getting under way, and it is not expected that early shipments will bring satisfactory prices because they are arriving too early. It is estimated that the crop will run about 45,000 tons this year, a reduction of about 15,000 tons over last year.

Other fresh fruit shipments have been generally light this season so far, at prices far from satisfactory.

Canned fruit prices were named by packers during the past month, and are the lowest in several years. This has not stimulated heavy buying, however, and the jobbing trade is still taking supplies on a "hand-to-mouth" basis.

As the peach canning season draws to a close, it is apparent that the 9,000,000 case maximum will not be reached; the actual figure will be around 8,750,000 cases.

# ANNOUNCE NEW TEACHERS FOR COMING YEAR

Eighteen teachers in the schools of Santa Ana will not return to the halls of learning when the fall term opens on September 14, it was learned today at the office of Dr. Percy R. Davis, superintendent of schools. Twelve new teachers and five who have been on leaves of absence will take up their duties, while vacancies at three schools were filled at the last meeting of the board of education.

Instructors returning from leaves of absence for the past year are Ellen Foote, high school; Mary Henderson and Hazel Thrasher, Julia Lathrop Junior High school; Ruth Miller, nurse, and Helen Kennedy, John Muir school.

New teachers are Frances Giddings, kindergarten and primary supervisor; Marion Grant, Americanization; Ilse H. Hamman and Robert J. Parker, high school; Grace Prichard, kindergarten assistant, Fremont; Justina Palmer, Hoover; Florence Lazare, kindergarten assistant, Lowell; Lucy Powell, Lowell; M. Dorothy Jessee, kindergarten assistant, Spurgeon; Louise Van Dien, Spurgeon; Lucille Harrison, Wilson, and Eleanor Guyer, Spurgeon.

Three teachers elected to vacancies are Mrs. Gertrude Winchester, Delhi; Clara Spelman, music;

## Aching Kidneys Made Strong or Money Refunded

If kidneys and bladder have become weak, irritated—causing sleeplessness, painful urination and back-breaking aches, look out for trouble.

For prompt, effective relief ask your druggist for a box of Wildunger Tee, containing valuable kidney-activating salts from the famous Wildunger in Germany. This in 114 European medicines helps more than a ton of harsh drugs, say many physicians who prescribe it. In fact, so sure are the importers of this amazing preparation that they have engaged at their expense the best physicians in the country to bring them the ones who have instructed druggists to refund every penny unless you're delighted.

Even high blood pressure, rheumatic aches, pains, stiffness and swelling, and acid indigestion quickly respond to Wildunger Tee. Get a big box today. Use it faithfully. If you're not satisfied, demand that you are getting well after taking only one box, your money back.

You can get Wildunger Tee from C. S. Kelley, Druggist, 101 E. 4th Street, Santa Ana—Adv.

## NEW SUBJECTS OFFERED AT S.A. HIGH SCHOOL

The addition of a number of new subjects to the educational program at the Santa Ana high school this year will make the curriculum of the school the most extensive of any in the past, it was revealed today by D. K. Hammond, principal of the school.

New courses will be offered the students in applied arts will include crafts of all kinds, pottery, leather, batik and bookbinding. This course will be conducted by Miss Ida Hamman, former instructor at U. C. L. A., and will be given in one of the bungalows purchased by the school board last year. The applied home crafts course in home economics department will also be continued with first and second semester work being offered.

In the vocational line arrangements have been made so that every boy in the industrial arts department will have two periods a week for the study of occupations.

A beginning instrument class in music will be organized for two days a week. Botany will be given to students for the first time in several years.

Practical chemistry is offered to girls who do not plan to take other chemistry and who want to take the subject as a college entrance credit. It will emphasize the practical side of the subject with applications to the home.

For the talented student who is qualified to speed up his course, a rapid class in geometry will be organized which will cover the year's work in one semester. A rapid course is also offered to students who wish to take up the study of Latin in their senior year and complete three years' work in one.

Any student may take any music course or typewriting in addition to the regular four solids, Principal Hammond announced.

### SPRINGDALE

SPRINGDALE, Sept. 8.—A new well for the water supply for Springdale school has been drilled in preparation for the school term, which opens September 14. Mrs. J. W. Young of Midway City returns as principal of the school and Mrs. Van Gortz as primary teacher.

Mr. and Mrs. Zine Crane, Mr. and Mrs. Charles Wentzel and daughter, Juanita, Wentzel, were among local people who attended the potluck supper and program given as a Christian Endeavor benefit Tuesday evening at the Huntington Beach Christian church.

Mr. and Mrs. Virgil Lyons, son-in-law and daughter of Mr. and Mrs. J. J. Graham, and their two daughters of Puerto Rico were entertained as overnight guests in the Graham home and other visitors included Mr. and Mrs. Krausma of Glendale.

Mr. and Mrs. Ayres, who occupied apartments at the J. J. Graham home when they were local residents, were calling in the Graham and Chapman homes one day. The Ayres are residing on Cherry avenue in Long Beach.

Mrs. Mary Piper, who has been the house guest of her sister, Mrs. Zine Crane, left this week for Santa Ana, where she is with another sister, Mrs. J. B. Irwin. Prior to her departure, Mr. and Mrs. Crane and Mrs. Piper spent an evening in Long Beach, where they were entertained by their mother, Mrs. Talbert.

Mr. and Mrs. George Chapman attended the American Legion convention in Long Beach.

Mrs. Leona Garen and baby, who have been guests in the home of her brother, Charles Houser, and family, have gone to Villa Park as the guests of her brother-in-law and sister, Mr. and Mrs. Lloyd Edwards.

The majority of the lima beans in Springdale section have been cut or are being cut now. There was a large acreage of this crop in Springdale this season.

### WANTED Local Manager

#### with \$385 Cash

Your \$385.00 buys outright a chain of stations designed to sell Safety Razor Blades. The stations are now ready for installation in and around Santa Ana.

#### SUPERIOR TYPE BLADES

The blades sold at these stations are made of the best Swedish charcoal steel and fit any two-edge razor. Regular customers say they shave smoother and stay sharp longer than any blade they have used.

#### REAL PROFIT

Selling two blades for 10c, each your stations need average only four blades sales a day to give you over 200c net profit annually, even after for space, blades and equipment.

After operating the business for 20 days, you may purchase additional stations up to \$3500.

This expansion, however, is entirely optional with you and is intended to give an opportunity to build your business gradually without obligation.

#### IDEAL, YEAR 'ROUND BUSINESS

This ideal, all year around business affords a splendid opportunity for any responsible man who wants to either run or operate your own manager. Naturally, we assist you in every way possible to insure a proper start.

This offer warrants the investigation of anyone having \$350.00 cash or more.

# DEPRESSION IS SERMON TOPIC OF L. B. PASTOR

appear to lack a leader to point the way out of our dilemma. There is no voice of authority, no outstanding personality, that beckons us on. One of our most urgent questions is this: Is the present condition merely a repetition of the former cycles of prosperity and depression, or is it the mark of a complete change in our social and industrial order?

"I believe that the latter is the case. The old conditions have passed, never to return, and we have no right to assume that the cycles will repeat themselves. There are three reasons why I cannot believe that the old conditions will return.

#### Gives Reasons

"First, the length of the present depression. We are now facing the third winter of unemployment and distress, with every prospect that this will be the worst of the three. Second, the depression is worldwide in its extent. It is not merely America, nor England, but the whole world that is involved. Third, there is a complete lack of any reasonable hope of immediate betterment of conditions.

"A return to our recent conditions of prosperity is impossible because the conditions which brought that about are gone. The post-war period, with its necessities for rebuilding the property destroyed in the war, has passed. The era of the building boom, the growth of new industries, the high-pressure selling and installment buying, is in the past. Our increased technical ability has brought about overproduction to such an extent that any marked demand for any commodity will cause the markets to be flooded within six months. The old days have passed, and we have no right nor reason to hope for their return.

"The whole trouble lies in our conception of property rights and industrial organization. The old "laissez faire" policy of Adam Smith has been worked out to its ultimate conclusion, and we have its results today. Business will not take care of itself. Human society must work out the solution for its problems.

#### Need Plan

"Russia is challenging the world today with an experiment in social government. Whatever we may think of Russia and her methods, we must recognize the fact that while the rest of the world is struggling with unemployment and overproduction, Russia puts every man to work, and Russia limits production to the point of supplying actual needs. Above all, Russia has a plan on

## EXPERT GIVES BRIDGE CLASS WEEKLY HAND

### Maxwell, Cannon In Classic Hour

Johnny Maxwell, "the tenor with tear in his voice," and Art Cannon, KREG pianist, are to feature an all-classical program tonight, beginning at 7 p. m.

This popular tenor is a real favorite with a multitude of listeners and his program this evening promises to be more pleasing than usual.

He will sing an aria from "Flagello" and "Elegie" by Massenet among his offerings this evening.

Art Cannon will accompany and play several piano solos.

### KREG NOTES

The Spanish program has been scheduled again tonight for an extra half hour and will begin at 8:30 instead of 9 o'clock. The group of people entertaining during this hour and a half of delightful Spanish music are representative of some of the best in Spanish entertainment available, and their programs are awaited by a great many listeners and bridge enthusiasts. She will be glad to answer questions on bridge during her weekly half hour radio lessons provided they are sent to her in care of KREG.

The hand for tomorrow's game is as follows:

South (dealer)—spades, 4, 2;

hearts, A, 3; diamonds, A, Q, J,

5, 2; clubs, 8, 7, 4, 3.

West—spades, K, Q, J; hearts,

K, Q, J, 10, 9, 7, 4; diamonds, 3;

clubs, 9, 6.

North—spades, A, 10, 7, 5;

hearts, 8, 6, 2; diamonds, K, 10,

8; clubs, K, J, 10.

East—spades, 9, 8, 6, 3; hearts,

8; diamonds, 9, 7, 6, 4; clubs, A,

Q, 5, 2.

Score: north and south, 0; east

and west, vulnerable.

LARGE FALL OPENING  
Business Institute, 415 No. Sycamore. Enter any time.

### TOMORROW Starts 9 A. M. 105 East 4th

### LEADER

### MUSICAL MOLL FAMILY BACK WITH PROGRAM

Russell Thompson, below, directs the Hawaiian musical group under his name that will again go on the air from KREG for a series of weekly programs.

The program director of KREG announces the return of the Musical Moll family to that station this evening at 8 o'clock.

Robert Moll, playing the trumpet; Mabel Moll Davis, flutist, and Mrs. Mabel Moll accompanying at the piano and playing solo selections found favor in the radios of KREG listeners with their musical offerings some days ago. They were absent from the station for several days while they enjoyed a vacation in the mountains, and they are now back again to entertain their friends.

Included in their program this evening they will offer Schubert's "Serenade," "When Day Is Done," "Twilight Brings Dreams of You," and "Kiss Me Again."

The Musical Moll Family will be heard from KREG at 8 p. m., Tuesdays, Thursdays, and Saturdays.

### RADIO PROGRAMS

When you read The Register you get the best service on local, county, state and national sports, the field being entirely covered by competent writers and well-trained staff correspondents

Billy Evans, William Brasher, Frank Getty, Robert Edgren, George Kirksey and Davis J. Walsh are just a few of the sports experts who contribute regularly to The Register.

## BRUSHING UP SPORTS . . . By Laufer

## HOOKS and SLIDES

William Brasher

### DID YOU KNOW THAT?

Eddie Collins and Hal Chase never chewed tobacco . . . Babe Ruth takes an enormous chew before the game . . . and sprays the feet of the players near the dugout . . . Once when Jack Coombs was pitching for the Robins, he swallowed a chew and had to leave the game . . . Birdie Cree Yankees outfielder of 20 years ago, is now cashier of the First National bank of Sunbury, Pa. . . "Gabby" Street has no hard and fast rules for the Cards . . . He lets them use their own judgment . . . after he is sure they have some to use . . . Two first basemen have staged remarkable comebacks this year . . . we mean Bottomley and Grimm.

### NO BETS TODAY

Babe Ruth says he is going to retire in a few years. Well, Niagara Falls is wearing itself away, too. And scientists tell us that eventually all the oil in the world will be used up. Your correspondent, however, is not laying bets on any of the above subjects.

### IT COMES AND GOES

Pete Sarmiento loved to fight. He earned \$350,000 that way. He loved, also, to shoot craps. He lost \$350,000 that way. What's the moral? Pete's family can tell you more about that than I could.

### WHO'S THE SLOWEST?

Now that Ben Chapman has proved himself the fastest man in the American league, how about another little contest between J. Francis Hogan of the Giants and "Fatty" Fothergill and Smead Jolley of the White Sox to find out who can run longest in one place? We're taking Jolley.

### FORECAST

The Cardinals will win three games of the world series this fall. If Derringer can win a game, they will win four. Burleigh Grimes and Jess Haines will win two games and Bill Hallahan one. All right, wait and see!

### HEY THERE, BILL!

"There is not much difference between a football game and a common fight," said Governor "Al-falfa" Bill Murray of Oklahoma in ordering the athletic appropriations at Oklahoma University and Oklahoma A. and M. cut to the bone. "I won't go to any games." Oh, come now, Bill, don't you care even a little bit for a common fight?

### OLD MAN JONES

There may be sadder spectacles than Bobby Jones going about the course at Beverly, armed with a pencil, notebook and movie camera, but your correspondent does not care to see them. Times are tough enough.

### POOR OLD POP

Glen Scobie Warner says that his Stanford team this year will be only so-so. And so-so he'll just about beat Southern California. He has taken a licking three years hand-running. Poor Old Pop will win this year because he doesn't

### Here's Rookie Who Was Just a Rookie

CHICAGO, Sept. 8.—(UP)—Mike Kreevich, rookie outfielder from the Des Moines Western league club, made his debut with the Chicago Cubs yesterday by wandering off third base with only two out when he thought the side was retired. In his first time at bat he singled against Paul Derringer, St. Louis Cardinals' pitcher, and when he reached third on a stolen base and a hit he pulled the honer. The Cubs lost the game, 1-0.

ALL games will begin at 1:30 standard time. If a game is postponed by rain or any other cause before it becomes a regulation game, it will be played the next day in the city where it was originally scheduled. In the event of a tie game, the schedule will not be altered, but it will be played off, if necessary, after the seventh game in the city where it was first scheduled.

### STAGG ALL SET

In his 40th year of coaching at the University of Chicago, Amos A. Stagg will send his team against an eleven from Yale, his Alma Mater, at Chicago this fall. And if you don't think he wants to win that game, you had better go to the radio and listen to some self-improvement talks.

### DID YOU KNOW THAT?

C. C. Pyle says any National league pro football team could beat Northwestern or Illinois (or any college eleven) by four touchdowns . . . and that he has no sympathy with "the type of football coach, so prevalent today, who surrounds himself with a halo, labels himself a builder of men and yet poohs at the idea that the boy should capitalize on his athletic ability after leaving school while the coach each month draws a large check for his professional services."

Vice President Charles Curtis and "Chief" Johnon, an exercise boy at the tracks, rode horses together over the plains of Oklahoma . . . H. T. Batcheller, authorized agent for the Three D's stable, is 84 years old.

### THE STAGG ALL SET

In his 40th year of coaching at the University of Chicago, Amos A. Stagg will send his team against an eleven from Yale, his Alma Mater, at Chicago this fall.

And if you don't think he wants to win that game, you had better go to the radio and listen to some self-improvement talks.

## SPOONERS

# ALL-STARS BATTLE COLTON World Series To Start Oct. 1

## FIRST GAME AT PARK OF NATL. LEAGUE WINNER

CHICAGO, Sept. 8.—(UP)—Three days will elapse between the end of the major league baseball season and the first game of the world series, according to the playing schedule drawn up by Commissioner K. M. Landis and league officials.

The season ends September 27, but the first game of the world series will not be played until Thursday, October 1, in the city winning the National league pennant. The second game also will be played in the National league city and then the scene will shift to American league grounds for the next three games.

If the St. Louis Cardinals and Philadelphia Athletics win their respective pennants, the schedule announced yesterday by Commissioner K. M. Landis follows:

October 1 and 2—At St. Louis. October 3 and 4—Travel and idle day, because Sunday baseball is banned in Philadelphia.

October 5, 6 and 7—At Philadelphia. October 8—Travel.

October 9 and 10 (if the sixth and seventh games are necessary)—At St. Louis.

All games will begin at 1:30 standard time. If a game is postponed by rain or any other cause before it becomes a regulation game, it will be played the next day in the city where it was originally scheduled. In the event of a tie game, the schedule will not be altered, but it will be played off, if necessary, after the seventh game in the city where it was first scheduled.

# Late News From Orange And Nearby Towns

## WHITTIER MAN GIVES TALK ON DISARMAMENT

EL MODENA, Sept. 8.—Roy L. Van Deman of Whittier, spoke on "Disarmament" at the El Modena High school Sunday night. He did in part:

"Now, when Jesus came, He gave us the Sermon on the Mount, in that sermon you will find text, 'Blessed are the peacemakers; for they shall be called children of God.' Matthew 5.

"There are some aspects of peace movement which will always be with us. Some parts of it are solved or are not solved, pass into the past. There is a

dependence of government on con-

science, rather than conscience government. In June, the decision of the United States su-

preme court, in the case of Dr. McIntosh, was handed down. He

made application to have his

retrial. There is an impend-

ing vote in the United States sen-

ate in December as to whether the

United States shall go into the

World Court. Long and vigilant

watch which we must main-

tain, not only to reduce arm-

aments to zero, but also to keep

them there.

A part of that question is

whether we as to whether we can

bring pressure enough to bear on

our representatives, so that they

will dare to take to their res-

pective governments a demand that

there shall be a general disar-

senal. I have been impressed

with the Armistice with the fact

that public opinion has a voice in

deciding that it has never had be-

fore. An alert and informed pub-

lic opinion becomes a guiding

force in the life of nations. Here

sit in our churches, our thea-

ters, and our homes, and if we

go now and think, we may have a

week in great things: if we are

generous or indifferent, we need

blame only ourselves, if sincere

military men become the man-

agers of the government, while hon-

orably believing themselves to be

saviors of the country.

The supreme court has decided

that the government may pro-

pose a war, and that all citizens

must fight, without his own opin-

ion or his own conscious objec-

tion to take human life. This is

an intolerable state of things and

and I cannot be silent; for it

would be to set our faces toward

any. It would deny the pur-

pose of the Constitution, to pro-

vide liberty throughout all the

states, to all the inhabitants there-

then.

By a five to four decision, the

supreme court denied to Prof.

Van Langen McIntosh of Yale universi-

ty and Miss Marie Bland, a war

mite, citizenship in the United

States, because they have refused

to fight in a war which would be

against their own conscience. Dr.

McIntosh is not an absolute

apostle but he is held to be mor-

ally unjustified, when he speaks

of God first. Instead of the nation

the world court, if we do have

the war, will settle many things. The

disarmament conference, will be

in Geneva, in February, un-

postponed. This proposed

disarmament will depend in a

part on the senate vote, the

more less important will be the

vote in which the senate votes.

Its vote is delayed and public

opinion is weak enough to justify

it. It will be a great blow. On

the other hand, if the senate

votes favorably, and quickly, it

greatly hearten friends of dis-

armament.

I have not yet read Fos-

ter's article in Scribner's on our

right of taking the lead in peace,

I believe it is not a record of

which the senate vote is to be proud. If we are to

be the leading place in world

disarmament, we must act. We

have 19 centuries from the cross of

arms, and we have used five bil-

lions of dollars gold, in arming

ourselves to destroy each other,

poison gases, tanks, warships,

bottled disease germs let

in the food of our enemies,

best informed military ex-

pects say there would not be any

ally or defense for any fam-

ily. Cities all over the land could

be destroyed by air in 30 min-

utes. Boys from our college and

from the country around El

Modena might destroy without

any and there would be no es-

cape. The preparations for war

of 1918, may exceed the prepara-

tions of 1913, as a great factory is

a primary school room. If

it is no way out, except by the

use of armaments, under scien-

ce war, but by the stillness of

the world's civilization, then let us

try to end the folly of arm-

ament. I wonder if we are hu-

man, or after all beasts of the

earth. Five billions of dollars

year! In the name of Christ,

let us repent and take counsel to-

gether.

personal letter counts still

more than a name on a petition.

Does your senator or repre-

sentative know how you want him

to vote, unless you tell him? A

signed by an active voter is

more effective than a petition.

Sit down and write to your

representative. Our fathers

were in a terrible struggle to get

the petition. If any of you

want more knowledge, I can give

you or can get it for you.

These are the peacemakers. In

our day, there were no interna-

tional peace movements. In our

day, we know Jesus is in the

fulfillment of the wonderful prom-

ise of Isaiah."

### Orange Personals

ORANGE, Sept. 8.—The Auld Lang Syne club met with Mrs. Hilda Curran at the Anaheim park Tuesday. A pot luck dinner was served and the usual quilt was made for the hostess. The next meeting will be with Mrs. Clara Sherman in Long Beach.

Members of the club present were Madames Bessie Creely, of Buena Park, Clara Sherman, of Long Beach, Ellen Freek, of Fullerton, Frank Higgins, Ray Valentine, Effie Tannahill, Carl Opp, Clarence Valentine, Pearl Higgins, Bessie Foster, E. Higgins and the hostess.

Mrs. Lillian C. Koening, 431 East Palm street, Friday was issued a building permit by Building Inspector F. B. Dale to re-roof her residence.

Raymond M. Warren and family moved Friday into the residence at 274 North Pine street. Warren is the instructor in mathematics in the Orange Union High school and tennis coach.

F. T. McCollum and daughter, Miss Ethelyn, of North Cleveland street, were business visitors in Santa Ana Friday.

Mr. and Mrs. Percy J. Green, of 140 North Waverly street, are entertaining in their home, relatives from Oregon.

Mrs. Janice Johnson, of Santa Ana, was a house guest last week in the home of her former schoolmate, Miss Nancy Laurie, of West Chapman avenue.

W. A. Ralph, of 225 South Cypress street, is enroute over the Santa Fe for an extended visit in his old home at Jefferson, Mo.

Mrs. Henry Chandler, of West Chapman avenue, spent Friday in Long Beach.

Mrs. Rose Purdie, of 347 South Parker street, who has been ill at her home for some time, has recovered sufficiently to be back again at the De Luxe studio in Santa Ana, where she has been employed for some time.

Mrs. Minnie Grahn, of Long Beach, was a house guest in the home of Mr. and Mrs. L. E. Brown on West Chapman avenue last week.

C. L. Aaron, son of Mr. and Mrs. R. E. Aaron, of Jane street, is in Long Beach for an extended visit.

Don Meadows will continue his work as instructor in the Avalon city school, Catalina Island, this year. He and his family spent a part of their summer vacation in the family home with C. W. Meadows at 251 North Grand street.

Mr. and Mrs. D. C. Claypool, of 474 North Glassell street are entertaining their daughter, Mrs. Carl Dole, and children, Roberta Jean and Duane, of Long Beach.

The West Orange 4-H club member who will be sent on the state wide 4-H club tour to the state fair and Davis Agricultural college next week is Bob Johnson, who has been graded as the most efficient member of the club. Two members of the club were selected as ranking next in efficiency. They were Harold Leightfuss and Arthur Struck and they were appointed alternates.

The usual 4-H club meeting will be postponed from the regular meeting day until September 19 because of the tour, the leader, J. H. Hinricks, of West Collins street.

Mr. and Mrs. Bruce Richards, of 144 South Olive street and their guests, Mr. and Mrs. Robert Mathias, motored to the home of Mr. and Mrs. Jesse McDaniel at Huntington Beach Friday evening. The three women are sisters, the daughters of Mrs. G. A. Gates, of 150 North Center street.

Mrs. Harry Laulie, of 201 West Chapman avenue, motored to Balboa Friday evening and her daughter, Miss Nancy, was the hostess at a merry swimming party. Those enjoying the surf were Miss Ruth Sinclair, the Misses Janice and Louise Johnson, Miss Luberta Morgan and the two hostesses.

Mr. and Mrs. Jessa Barnes, of South Clark street, are at Lake Arrowhead. Mr. Barnes is an employee of the Dewey and Hessel store on East Chapman avenue.

Work on the school garage on the grounds of the high school of Orange is nearing completion and will be ready for occupancy at the opening of school.

Mrs. Grace Strickland, of East Chapman avenue, accompanied her daughter, Mrs. G. Williams, on a business trip to Los Angeles Friday.

Charles Spotts Jr., formerly of South Clark street, has taken up his residence in Santa Ana to be near the headquarters of his work as manager and distributing agent of monthly and weekly periodicals.

Clark Morgan, of North Pine street, was in Long Beach Friday and visited his brother, J. Currist Morgan, who is an employee of the Standard Oil company.

Mrs. Pearl Ess and Mrs. Harold Moody were guests Friday in the home of their sister, Mrs. Frank Richardson, South Grand street.

SANTA ANA, CALIFORNIA, TUESDAY, SEPTEMBER 8, 1931

PAGES THIRTEEN TO TWENTY

APPROVE BOND  
ISSUE FOR JOB  
RELIEF WORK

Supervisor Willard Smith, of Orange, was present in San Francisco at a recent conference of county supervisors from throughout the state at which the Fellow proposal for unemployment relief was endorsed. The Fellow plan provides for a \$20,000,000 bond issue being submitted to the voters at an early date. The legislative and executive committee of the State Association of County Supervisors was the group which endorsed the plan.

The committee will submit the plan to the state convention of the county supervisors association which meets in Sacramento on September 11. The convention is in turn expected to urge Governor Ralph to call a special election on the proposal.

At a recent conference on the unemployment problem, Governor Ralph publicly stated that he would call such an election if the Fellow plan met with the approval of the supervisors' association.

Stanley Abel, of Taft, secretary of the supervisors' organization, made the following statement on the employment bond proposal:

"The Fellow plan is the only proposal to date that is adequate to meet the serious situation with which the state will be confronted during the winter months. It will make a large sum of money immediately available for the employment of thousands of men on grade crossing and county road work. It is in accord with the American principle of 'work and wages' instead of a dole."

In brief the plan calls for a special election at the earliest possible date, the measure submitted to provide for a \$20,000,000 bond issue to be retired in ten years through a one cent increase in the gasoline tax. The money would be allocated to the counties in proportion to their motor vehicle registration. A minimum allowance of \$20,000 is fixed for each county. Thus the proceeds of the gas tax increase are confined to the original purposes of the gas tax—highway construction."

The measure also provides for a continuance of county highways through municipalities and for the construction of necessary appurtenances such as bridges, tunnels and grade separations. It further provides for a reduction of the 40 cent county road tax to 20 cents by 1933.

County Persimmon  
Growers To Meet

The annual meeting of the Persimmon Growers association of Southern Orange county has been called for Friday, September 11, at the Central Lemon association house at Tustin, commencing at 8:30 p.m. The meeting is open to all persimmon growers, whether or not they may be members of the association, according to H. R. Smith, secretary.

It is understood that growers may join the organization at any time up to and including September 15, after which date no new members will be accepted for the marketing of this season's crop.

## HUNTINGTON BEACH

HUNTINGTON BEACH, Sept. 7.—The executive board of the P.T.A. will meet Tuesday afternoon at the home of Mrs. Otis Scott, Standard Oil camp.

C. B. Baldwin, accompanied by his family, has returned from spending the summer at their mountain home at Arrowhead lake. Mr. Baldwin is superintendent of the elementary school. The board of education will meet this week to complete plans for the opening of school and for the dedication of the new school plunge and gymnasium now nearing completion. When the elementary school opens this term, it will be one of the most modern and complete school plants in the world.

Al Tietze, former superintendent of the Standard Oil company at Huntington Beach, now with the Standard at Bakersfield, is spending his vacation in this city. Mr. and Mrs. Tietze have many friends in this city and are being warmly welcomed during their visit here.

Dr. P. E. Sheehan was speaker at the Rotary club meeting Friday noon at the Golden Bear cafe. He made a delightful craft talk, discussing dentistry. The musical program included violin selections by Harry Robinson and selections by a quartet composed of the Rev. J. H. Hurst, pastor of the Christian church; Al Severson, Roy K. Smith and Dr. Ralph E. Hawes.

## "LOOK, PRINCE!"

Great Britain's future king had his eyes on the clouds when this informal picture was taken. Caught off his guard by the camera, the Prince of Wales is shown watching the aerial show during the Household Brigade flying tournament at Heston, England. That's the Marchioness of Cambridge beside him.

12 EXHIBITS ARE  
COMBINED FOR FAIR4-H Group Leaves  
For Convention;  
Will Attend Fair

Twelve separate exhibits are united to form the educational display of the University of California college of agriculture at the California state fair at Sacramento, now in session, according to Harold E. Wahlberg, Orange county farm advisor.

As usual, the exhibits are housed in the university building to the south of the main entrance. Here is maintained a room for farmers and their families to rest; chairs also are provided on the lawn in the shade in front of the building.

The 12 divisions of the exhibit are: infant feeding; infant clothing; selection and planting of pure seed; cheese and its uses; better wool production; quality of market eggs; forage crops for dairy farms; increased production of dairy cattle; fruit; spoilage and diseases of fruits; feeding of skim milk to hogs; four booths depicting the four-fold program of 4-H agricultural clubs; co-operative marketing.

## JUST RUB IT IN

VIENNA.—In the future, if Prof. Carl Stejskal's development is adopted, all you'll have to do when you get hungry is to grab some "dumtown," rub it well into your skin, and go on about your business. This food paste is, according to the professor, capable of supporting life indefinitely without

feeding in the usual way. The food is absorbed into the system through the skin, it is said.

EMPLOYMENT  
OFFICE ASKS  
COOPERATION

The city free employment office reports big business, both in applications for employment and in jobs filled.

During the month of August, according to the figures presented by Mrs. Dave McMillan, who has charge of the work, 154 persons were sent out to work. Many of these were bean stackers, and as this work is now practically completed, most of those men are now looking for work again.

There are at present about 600 applications for employment on file in the office. These applicants include workers in a great variety of lines. There are carpenters, cement workers, farmers, gardeners, cooks, mechanics, clerks, office workers, painters, plasterers and many laborers who are anxious to get any sort of employment.

There are women listed who want stenographic or other office work, clerking, housekeeping, cooking, sewing, practical nursing, laundering, house cleaning, waiting tables, or almost any sort of work that women can do.

The telephone number of the office is 1024, and the office is located on North Main street, between First and Second. "Any person who can use a helper for an hour, a day, or a longer period, will do well to call the office and have some workers sent out," Mrs. McMillan said.

The office regularly gives preference in placement to permanent residents of Santa Ana, and so far as possible helps those first who have the heaviest responsibility.

There are a good many cases of serious need which can be met only by the provision of work.

Now is a good time to have repairs made, or any improvements attended to that can be used at this time, as a preparation for winter, it was pointed out.

Co-operation on the part of citizens is requested, in order that the employment office may be able to render the service for which it is maintained.

## BUENA PARK

Refreshments of pineapple ice cream, cake and coffee were served at the close of the games. Decorations used were red and white rosebuds.

Mrs. William Loughboro, of South Grand avenue, Buena Park, will entertain the club in October.

Seldon F. Del Giorgio, of Whittaker avenue, has been appointed sergeant in the University of California R. O. T. C. Infantry unit, according to announcement made by Col. R. O. Van Horn, professor of military science and tactics.

Del Giorgio is a junior in the college of commerce at the university. The promotion in the R. O. T. C. It is announced, is for excellence of work in the department of military science and tactics.

Mrs. Victor Wilson, who resides in the Krepp house, was the honored guest at a surprise party given Wednesday at Huntington Beach by friends and relatives of that city. Mrs. Wilson was the recipient of many beautiful gifts.

Mrs. M. E. McKay has been entertaining two girls from Los Angeles for several days. A beach party was held one evening and a chop suey supper another evening.

Mr. and Mrs. W. D. Shirey and daughter, Miss Helen Shirey, and son, Donald Shirey, enjoyed meeting with many old friends at a Foster, Ohio, picnic held at Bixby park, Long Beach.

Miss Isabelle Easer of the county hospital, accompanied her mother, Mrs. J. L. Easer and Mrs. W. H. Taylor home, spending several days.

Mr. and Mrs. J. L. Beaver have as their house guests, Mrs. Beaver's parents, who arrived Wednesday from Imperial.

Mr. and Mrs. Fred Foley entertained Mrs. Foley's sister, Mrs. Ed. Kene, and two children, of Fresno, as guests. Mrs. Foley accompanied Mrs. Kene and the children to Imperial valley, where they are visiting another sister.

TOASTMASTERS  
OPEN SEASON  
WITH DINNER

Public speaking is to be featured again this season at the Y. M. C. A., which has come to be recognized as a center of this line of work in Santa Ana.

The Toastmasters club will hold its first meeting for the season on Wednesday evening at Ketner's, according to announcement by Harry LeBarb, president of the organization. LeBarb will act as toastmaster of the evening, and there will be a program of impromptu and prepared speeches that will give the season's work a good start.

The club, according to custom, has omitted its meetings during July and August, but will meet regularly each week from this time on.

The fall class in public speaking instruction and coaching will be organized in two weeks, the organization meeting being a public event scheduled for Tuesday, September 22.

The class will be continued by General Secretary R. C. Smedley, who announces that he will accept both men and women in the class this time, instead of limiting it to men only, and that a maximum of twenty-five students will be enrolled. Smedley has been coaching and teaching public speaking groups for a number of years and has been successful in developing some very successful speakers.

The class which starts this month will be carried through fifteen weeks, and should prove a valuable opportunity to men and women who wish to learn how to be at home on their feet in speech or discussion.

## MIDWAY CITY

Mrs. R. D. Saylor, secretary for Walter J. Hill, has returned from Montana, where she has been for several months and where Mr. Hill is remaining for the shooting season.

Mrs. Victor Wilson, who resides in the Krepp house, was the honored guest at a surprise party given Wednesday at Huntington Beach by friends and relatives of that city. Mrs. Wilson was the recipient of many beautiful gifts.

Mrs. M. E. McKay has been entertaining two girls from Los Angeles for several days. A beach party was held one evening and a chop suey supper another evening.

Mr. and Mrs. W. D. Shirey and daughter, Miss Helen Shirey, and son, Donald Shirey, enjoyed meeting with many old friends at a Foster, Ohio, picnic held at Bixby park, Long Beach.

Miss Isabelle Easer of the county hospital, accompanied her mother, Mrs. J. L. Easer and Mrs. W. H. Taylor home, spending several days.

Mr. and Mrs. J. L. Beaver have as their house guests, Mrs. Beaver's parents, who arrived Wednesday from Imperial.

Mr. and Mrs. Fred Foley entertained Mrs. Foley's sister, Mrs. Ed. Kene, and two children, of Fresno, as guests. Mrs. Foley accompanied Mrs. Kene and the children to Imperial valley, where they are visiting another sister.

## GREAT-GRANDCHILDREN

John D. Rockefeller...and his great-grandchildren, John de Cuevas, nine months old, and Elizabeth de Cuevas, two and a half years old, with whom he finds contentment in his advancing years.

PROBLEMS OF  
DAIRYMEN TO  
BE DISCUSSED

A meeting of the dairy department of the Orange county farm bureau will be held at 10 o'clock Thursday morning in the farm bureau offices in the court house annex, it was announced today by R. D. Flaherty, secretary of the farm bureau.

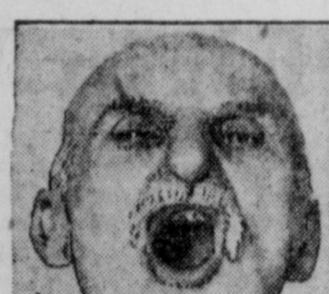

John Bichan, Orange county dairy inspector, will address the group on "State and County Laws and Regulations Governing Milk Solids." Ira P. Whitney, assistant manager of the California Milk Producers' association, will speak on "The Kind of Milk the Market Demands." "How to Produce Milk With a Satisfactory Milk Solids Content" will be the subject of an address to be given by W. M. Cory, assistant farm advisor.

General discussions will be conducted by Dr. R. E. Duckworth of the state department of agriculture; the surplus situation to be discussed by Theodore Hettinga, director from this district to the milk surplus plant. The latest Los Angeles market situation and other subjects of interest to dairymen will also be discussed. E. A. Wakeham, chairman, will preside over the meeting.

One of the main subjects to be discussed at the meeting will be the question of improving the quality of milk so that the food value will be higher. Feeding is one of the main items in determining the quality, it was said, and this subject is to be discussed by Cory.

## ARM BROKEN

HUNTINGTON BEACH, Sept. 8.—Margaret Baldwin, 12, daughter of C. B. Baldwin, superintendent of the elementary school, broke her arm at the Baldwin mountain home at Lake Arrowhead Saturday, the accident becoming known to friends of the family when the Baldwin's returned from their summer vacation yesterday. The child was playing on a bed, when she fell to the floor. They took her 22 miles to San Bernardino to a physician, who set the broken bone.

PERSONAGES OF HISTORY LEND DISTINCTION TO HATS  
SELECTED BY FEMININITY FOR EARLY FALL COSTUMES

The modified beret is tipped at an Empress Eugenie angle.

The Scottish highlander's bonnet is copied in this toque.

Henry VIII wore a hat similar to this plumed creation.

The Mary, Queen of Scots, model is of brown and green.

## Nurse Plans Birthday Celebration for Mrs. Cole

## YOU and your Friends

BY LAURA LOU BROOKMAN  
(NEA Service Writer)

NEW YORK, Sept. 8.—To be or not to be the Empress Eugenie?

This is the current problem in millinery. Every woman who sits before a mirror selecting her first fall hat must decide whether she wishes to appear as a reincarnation of the famous French empress or some other celebrated lady.

The Empress Eugenie and her coquettish, tip-titled derby hold the center of the fashion stage without question. But here are others!

There are for instance, Mary, Queen of Scots; Catherine de Medici, and Scheherazade, heroine of Arabian nights' tales, who have inspired Paris, style creators to produce hats almost exactly duplicating those worn by the fair ladies themselves. There is a Scottish cap which must be a double for the one worn by Annie Laurie, whose brow was so fair.

Dame Fashion, so far as hats are concerned, has definitely "gone" into the past. Mrs. Cole received her guests in her bedroom, where illness has necessitated that she spend much of her time during the past two years. The chosen hour for the affair was all too short for the interested guests who included her immediate relatives.

Many were the lovely gifts and greeting cards which were given Mrs. Cole, and these included quantities of colorful bouquets used to decorate the home for the occasion.

Greetings were sent by her son and daughter-in-law, Mr. and Mrs.

Chester Cole, of Chico, and by her brother, Edward Delavan of St.

Joseph's, Mo., who were unable to be present at the fair.

Mrs. McKay had planned a delightful refreshment menu, which included a large angel food cake topped with many tiny pink candies. This was brought in by Mrs. Cole's great grandson, little Wendell Delavan Cole, son of Mr. and Mrs. Clifford Cole, this city. Mrs. Susan Patterson, intimate friend of the honoree, assisted Mrs. McKay in serving.

Relatives present included Mr. and Mrs. E. D. Cole of Culver City, Mr. and Mrs. Oscar Blake and children, Ellen Dee and Bobbie, Mr. and Mrs. Clifford Cole and children, Wendell Delavan and Constance Joan and Mrs. Homer La Cole, this city.

Hugh Ledger of Harrisonville, Mo., arrived Friday for a visit in the home of his uncle and aunt, Mr. and Mrs. Luther E. Miller, Pacific avenue, Tustin. Mr. and Mrs. Miller and Mr. Ledger, accompanied by Mrs. Miller's brother-in-law and sister, Mr. and Mrs. Harrison Malicote and son, Harry, of Tustin, spent Sunday at Balboa and San Juan Capistrano, beaches.

Mrs. Edith Minter and niece, Miss Lucille Bennett, of Ocean avenue, left Saturday on a two weeks' northern motor trip which will be spent at Lake Tahoe and the state fair at Sacramento.

Arthur Blanding, 1473 Orange avenue, and Joseph H. Hazen, 315 Occidental street, spent Saturday and Sunday nights at Lake Hodges near San Diego.

Mrs. Charles E. Dixon and daughter, Mrs. Ruth Gilbert, 1138 South Ross street, are spending this week with Mrs. Pearl Willimot in Ventura.

Mrs. John O. Zabel, 119 Owens drive, had as guests yesterday Mr. and Mrs. Fred Arnold and family of Los Angeles.

Mr. and Mrs. Carl Friesen of Whittier have moved to this city to make their home.

The Rev. and Mrs. E. E. Hardin, 711 South Broadway, had as guests this past week, the Rev. Claire Elmore of Indianapolis, Ind., and the Rev. M. R. Dutton of Placentia.

Miss Mabel Dixon, daughter of Mr. and Mrs. Charles E. Dixon, 1138 South Ross street, today resumed her studies at St. Joseph's academy in Anaheim.

Congregational Woman's Union; church bungalow; all day; luncheon by Northeast section at noon.

Kiwanis club; Ketner's blue room; noon.

Stanford club; Ketner's cafe; noon.

Women's Relief Corps; Knights of Pythias hall; 2 p. m.

First Presbyterian Missionary society; with Mrs. F. E. Coulter, 826 South Ross street; 2 p. m.

St. Peter Lutheran Aid society; church parlor; 2 p. m.

Mr. and Mrs. T. J. Cummings, 514 West Eighth street, had as a weekend guests Mr. and Mrs. L. J. Tillotson and family of Bakersfield and Mr. and Mrs. C. D. Tillotson and family of San Bernardino.

Mrs. Taylor Johnston has returned from the high Sierras, where she spent the past month, and is resuming her activities with the Santa Ana Conservatory of Music.

Mr. and Mrs. T. J. Cummings, 514 West Eighth street, had as a weekend guest Mrs. Nellie Dean of Fresno.

Mrs. Effie M. Standard, who has spent the past six months in Long Beach, has now returned to Santa Ana and is pleasantly located in the Stovall apartments, 817 North Sycamore street.

Lester Trueblood was a business visitor in Long Beach Saturday.

Mr. and Mrs. J. T. Wool, 701 South Birch street, had as guests Sunday Mr. and Mrs. Will Kraemer of Arlington. Saturday guests in the Wool home were Mr. and Mrs. Percy Griffin of San Pedro.

Talented beginners, also intermediate and advanced pupils accepted. Graded rates. Inquire Wednesday or Saturday mornings regarding free scholarship.

## Merry Surprise Party Given to Celebrate Birthday

Mrs. E. E. Lentz was hostess at a delightful surprise party given this past week in celebration of Mr. Lentz' birthday anniversary. Guests assembled in the home of Mr. and Mrs. O. E. Klockenberger, 2042 South Broadway, and from there continued to the Lentz residence, 2060 South Birch street.

Earthquake "500" was introduced as the game of the evening, and in checking the tallies it was found that Mrs. Edith Gallup and Mr. Lentz held high scores. Mrs. R. H. Burkman and O. W. Fahrney were censored.

While tables were being made ready for the appetizing refreshment course, music was given by a quartet composed of Mr. and Mrs. Earl Lentz, E. E. Lentz and R. H. Burkman. W. D. Gillons sang several numbers, accompanied on the piano by Mrs. Allie Sims.

The menu included a large birthday cake decorated in pink and white and topped with candles. Mr. Lentz received many gifts from his assembled friends.

Those present, other than Mr. and Mrs. Lentz, were Mr. and Mrs. E. E. Perry, Mr. and Mrs. O. E. Klockenberger, Mr. and Mrs. Earl Lentz, Mrs. Edith Gallup and B. A. Hershey, this city; Mr. and Mrs. O. W. Fahrney, Long Beach; Mrs. Allie Sims and W. D. Gillons, Pasadena, and Mr. and Mrs. R. H. Burkman, Pico.

Visitors.

For Semester Junior College Y. W. Officials Plan

With the opening of the city schools so near at hand, officers and cabinet members of the Young Women's Christian Association at Santa Ana junior college enjoyed a beach meeting all day Saturday at Laguna Beach to draw up plans and policies for the coming semester.

The spacious summer cottage of Miss Lucile Reisch, treasurer of the organization, was setting for the pleasant affair. The first business meeting was held at 10:30 a. m. with Miss Elizabeth Riniker, president, in charge. The chief topic of discussion was the part the Y. W. C. A. will play during Freshman Days, which will be held Wednesday, Thursday and Friday of this week for the new students at the college.

The theme for the semi-monthly meetings was discussed and tentatively accepted while the preliminary plans for the annual Y mixer also were revealed. A delicious picnic lunch was served at noon and the afternoon was spent in swimming and beach sports.

Those present and the positions they hold in the active organizations included the Misses Elizabeth Riniker, president; Dulcie Green, secretary; Lucile Reisch, treasurer; Velma Bishop, program chairman; Jane Cunningham, chairman on international relations; Blanche Potter, chairman on house and grounds; Hazel Hashman, student representative; Goldie Peale, publicity chairman; Lois Read and Leona Stine, committee on sale of second hand books, and Mrs. Jenny L. Tessman and Miss Zena Leek, faculty ad-

visers.

The Missionary society of the First Christian church will meet tomorrow afternoon at 2:30 o'clock in the community house. New members of the church will be given a special welcome.

Mrs. George Pearce will be leader, with members of the Northwest section in charge of the program. The day's topic will be "Opportunity in the High Land."

Members of Emma Sansom chapter, Daughters of the Confederacy, will meet Friday afternoon at 2 o'clock with Mrs. Victor Montgomery, 2410 Ocean Front and Twenty-first street at Newport Beach. This will be the regular meeting, taking place on Friday instead of Thursday.

The Ladies' Aid society of St. Peter's Lutheran church will have a regular monthly meeting tomorrow afternoon at 3 o'clock in the church parlors. Hostesses will be Mrs. John Hasenauer and Mrs. George Hasenauer.

The Sewing circle of the Auxiliary of United Spanish War Veterans will have an all-day meeting tomorrow with Mrs. Rena Wheeler, 900 West Broadway in Anaheim. A covered-dish luncheon will be served at noon.

Members of the Mrs. Thomas S. Blair class of the First Presbyterian Sunday school are anticipating a party for Friday afternoon at 2 o'clock in the home of Miss Leslie Smith, 106 South Birch street.

The Security Benefit association will hold its regular meeting Thursday night at 8 o'clock in Modern Woodman hall. All members are expected to be present, as election of officers will be held.

The Women's Benefit Association will meet Friday afternoon at 2:30 o'clock in the home of Mrs. E. R. Curtis, 222 South Main street.

Dorcas society members of the First M. E. church will meet Friday in Irvine park for a noon-day picnic dinner and steak bake, with each member asked to bring their own steak, baked potatoes and tomatoes.

Mrs. John Turton will be in charge of transportation, so those having room in their automobiles as well as those desiring a way to go, are asked to telephone her.

For Sale—Broken pieces water-melon, apricot, fig and peach pic-  
kles. Bring your own container.

The Security Benefit association will meet Friday afternoon at 2:30 o'clock in the home of Mrs. E. R. Curtis, 222 South Main street.

Dorcas society members of the First M. E. church will meet Friday in Irvine park for a noon-day picnic dinner and steak bake,

with each member asked to bring their own steak, baked potatoes and tomatoes.

Mrs. John Turton will be in charge of transportation, so those having room in their automobiles as well as those desiring a way to go, are asked to telephone her.

I have sold my office equipment located at 311 South Main street, Santa Ana, California, to Dr. Hiram M. Currey, who assumes all responsibility for professional services rendered at that location.

When night time came the Tiny Mites were rather tired of seeing sights. "I'm fagged out," wailed poor Clowny. "and I'd like to go to bed. I hate to miss a single thing. From tiredness, though, my poor ears ring. For once I will admit that I'm a lazy sleepyhead."

The Travel Man replied, "Well son, another day is almost done. I think you're right about some sleep. Let's go to hotel and find the finest rooms we can. Just follow old man Travel Man. Tomorrow I will be we all will feel fine. Who can tell?"

So down the street the whole bunch went and when about an hour was spent, they walked into a dandy place and rented rooms real quick. As everybody climbed to bed, wee Scouty very loudly said, "I hope the other beds are just as good as mine. It's sick."

Next morning they felt bally. "Gee," said one, "there's heaps of

### MIDWAY CITY

MIDWAY CITY, Sept. 8.—Mrs. Chas. A. Whittet motored to Los Angeles Wednesday evening to Angeles Temple and was accompanied by Mrs. C. R. Hart and daughter, Emma Hart, and their aunt, Mrs. Susie Hall who is her house guest from the east.

Mrs. Charles Murdy and daughter, Miss Iola Murdy, were at Westwood Wednesday, Miss Iola Murdy enrolling at U. C. L. A.

The family party of eight, including Mr. and Mrs. Richard Arnett, Miss Lillian Arnett, Mary and Marie Arnett, Harvey Arnett of this place, and Mr. and Mrs. Wayne Arnett, of Cypress, who have been on a vacation in the east, returned home Wednesday night. They made 6402 miles with but four punctures to delay them. They visited in Missouri and West Virginia and Maryland with relatives, spent a day in Washington, D. C. and from there made their longest drive without a halt, a matter of 88 miles from the capital city to Centralia, Mo., where they joined Mrs. Wayne Arnett for the return trip which was made over the Lincoln highway.

Mrs. William Schmidt has returned from a delightful vacation spent at Lytle Creek in company with relatives.

Two vacant lots located on Adams street, have been traded by the owner, Perry Terry, for a house and lot located at the corner of Eighth and Acacia streets in Huntington Beach, the property being the last

owned here by Mr. Terry, who is a former local president and now of Huntington Beach.

## TEACHERS WILL HOLD MEETING NEXT FRIDAY

HUNTINGTON BEACH, Sept. 8.—Supt. C. B. Baldwin announces a general meeting for all members of the faculty Friday afternoon at 2 o'clock at the Central school building. At this meeting plans for the school year will be outlined and the teachers will organize for their work.

The elementary school will open next Monday, September 14. The school opens this year with a new building, the warm water plunge and indoor gym, one of the finest in the state of California, erected during the summer. The school grounds have been newly landscaped and replanted with lawns and shrubbery. Improvements have cost upwards of \$50,000. Huntington Beach now has a \$300,000 grammar school plant, ranking as probably the finest grammar school plant in the state and certainly the most modern, according to claims made by state officials.

Furnishings for the new indoor gym and plunge have not arrived, but will all be installed within the next week or ten days. Following this installation of furnishings the new gym and plunge will be formally dedicated at a public opening. Superintendent Baldwin stated yesterday the date for the dedicatory program would be set as soon as the school was organized and a program could be arranged by the faculty and board of education, composed of John H. Eader, Warren J. Bristol and Art Anderson.

## FAMILY PICNIC AT IRVINE PARK ATTRACTS 100

LA HABRA, Sept. 8.—The Fulwider-Gee family picnic was held at Irvine park Monday with more than 100 relatives and friends attending. A picnic dinner was served at noon. Officers were reelected to serve another year. They are as follows: Ernest Ware, president; Ed Hostetter, vice president; Carrie Stevens, secretary, and Fred Stock, treasurer.

The afternoon was devoted to races and contests. The winners were awarded prizes. The winners of first places were Roy Hostetter, Sylvia Robertson, Murry Hostetter, Myrtle Mothershead, Glen Sutton, Walter Allen, Orville Hostetter, Dorothy Coppers, Mrs. Roy Sutton and Fern Hostetter. Those winning seconds were Gilbert, Evelyn and Donald Sutton, Ellen Hostetter, Donald Martin, Glen Ware, Dannie Stevens, Laura Robertson and Mrs. D. Martin.

Those attending the affair were Mrs. G. E. Sutton and children, D. G. Fulwider, Mrs. Carrie Stevens and children, Mrs. Nila Sutton and son, Mr. and Mrs. U. R. Phillips and children, Mr. and Mrs. Ben Willey and children, all of La Habra; Mr. and Mrs. Wayne Hostetter and children, Mr. and Mrs. A. Hamilton, Mr. and Mrs. Charles Mothershead, Mr. and Mrs. J. Z. Sutton, Mr. and Mrs. R. F. Sutton, Mildred Robertson, Mr. and Mrs. Frank Cox and children, Mr. and Mrs. Riley Hopper, Mr. and Mrs. L. Robertson, Lillian Beasley, Donald Brings, Mr. and Mrs. E. V. Ware, Mrs. Perry Mothershead and family, Mrs. S. M. Kennedy, Mr. and Mrs. Elmer Austin, the Rev. and Mrs. E. E. Johnson, Etha Robison, Charles Brings and S. G. Fulwider of Whittier; Mr. and Mrs. Dewey Coppers and Mr. and Mrs. Fred Stock and children of Lomita; Mr. and Mrs. W. F. Williamson of Los Angeles, Mr. and Mrs. Ed Hostetter of Anaheim, Mr. and Mrs. D. E. Martin and children and Mr. and Mrs. Floyd Hostetter and children of Fallbrook.

## GRACE CRAWFORD L. B. MAN'S BRIDE

SAN CLEMENTE, Sept. 8.—The marriage of Miss Grace Adeline Crawford, daughter of the late John C. Crawford and niece of W. W. Crawford, now resident of La Habra valley, to Robert Paul Kincaid of Long Beach at the home of her uncle, W. W. Crawford, on North McPherson street.

The bride chose a soft gown of pink crepe de chine and was attended by her sister, Mrs. Edgar Eby of Long Beach, in a gown of pale green. Mr. Eby attended as best man.

The Rev. A. M. Blackmon, pastor of the Nazarene church, read the ceremony.

The bride cut a beautiful wedding cake following the ceremony and dainty ices were served the guests. They were Mr. and Mrs. Cecil L. Stephens, Mr. and Mrs. W. E. Moran and children, Mr. and Mrs. W. W. Crawford and Mr. and Mrs. Edgar Eby of Long Beach.

The bride came to La Habra when a small child and attended the local schools and is a graduate of the Taft high school. Since the death of her father, she has been making her home with her sister in Long Beach. Her husband is a graduate of the Long Beach high school.

## 5 Carburetors Stolen By Beach Thief

NUEPORT BEACH, Sept. 8.—Five Ford car owners reported to the police yesterday that carburetors had been stolen off their autos, parked at various places inside the city limits. The police are puzzled as to whether one thief with a penchant for collection of carburetors robbed all of the cars, or whether three thieves needed new carburetors for their autos on the same day. Owners reporting the loss of carburetors from their autos were Fred Davis, residing on Twenty-third street, Newport Beach; P. S. Rhodes, Bay View avenue, Newport Beach; Ray Woodward, 1424 Appleton street, Long Beach; Art Severson, Los Angeles; J. D. Cummings, Los Angeles.

## CHILD WELFARE WORK PLANNED BY H. B. GROUP

HUNTINGTON BEACH, Sept. 8.—The executive board of the P.T.A. met Monday night at the home of Mrs. W. H. Jones on Eighth street. The president, Mrs. Otto Scott, resigned and is leaving this week for Whittier to make her home, her husband, a Standard Oil employee, having been transferred to an inland field. The secretary, Mrs. Walter Jamison, also resigned because of other duties demanding her time.

The vice president, Mrs. Velma Clark, will conduct the board meetings and the opening meeting of the P.T.A. the first Thursday in October, at which time a new president and secretary will be nominated and elected. Mrs. C. W. Patrick was chosen secretary pro tem.

The chief business of the board at the meeting was a discussion of branch of philanthropic work, which branch of the organization will command the attention of the association this year, together with child welfare and social work of similar character.

A room will be fitted up at the elementary school where clothing that may be donated by the public will be repaired and cleaned for use of children who may be in need. Plans were made to help children prepare for entrance in school this term.

The board voted to send a letter to the city council asking members to do everything in their power to prevent the proposed negro orphanage being located in this city.

A meeting of the executive board will be held the first Monday in October at the home of the vice president, Mrs. Velma Clark, Main and Crest streets.

## PAGEANT GIVEN IN COSTA MESA CHURCH

COSTA MESA, Sept. 8.—"The Challenge of the Cross," by Lena Leonard Fisher, a pageant of simplicity and beauty, was presented at the Community church last night.

Miss Martha Hasse portrayed the character of the Evangel and the Misses Harriet Abrams, Maydelle Allen, Evelyn Rollins, Doris McMurry, Irma Arundell and Dorothy Bodman were disciples. Miss Marian Nelson and Mrs. A. F. Hasse assisted with vocal duets.

The men's quartet sang. Members of the quartet are Ed Bennett, Lawrence Wright, Earl Winterbourne and Herbert McMurry.

## Water Groups In Joint Session At Newport Sept. 11

SAN CLEMENTE, Sept. 8.—The Murphy, Trafford, Huteson and G. Scherck, members of the Associated Chambers of Commerce and Orange County association water committees, will attend a meeting at Newport Beach Friday night at which members of the water committees of the organizations will hold a joint session. The meeting will be held at the American Legion hall at 7:30 o'clock.

Murry Thompson, flood control engineer, will be the principal speaker of the evening. The session was called by Hugh T. O'Connor, chairman of the water committee of Orange County Coast association.

La Habra Revival Meetings Started By Bud Robinson

LA HABRA, Sept. 8.—A large audience greeted Bud Robinson, noted evangelist who opened a series of evangelistic meetings Sunday at the Nazarene tabernacle on North College street.

Professor F. Mandler of Pasadena is directing the music at the meetings and will present orchestra and band numbers. The meetings will be held each evening at 7:30 o'clock, with the exception of Saturday evening.

## STOP WORK ON LAGUNA BEACH NEGRO PROJECT SCHOOL READY FOR FALL TERM

HUNTINGTON BEACH, Sept. 8.—Openly expressed opposition to the proposed establishment of a Negro orphanage colony on Third street has apparently served to influence the board of control of the orphanage to abandon their plans. Mayor Elson G. C. Conrad and Warren J. Bristol of the board of education of the elementary school openly opposed the establishment of the Negro orphanage here, Mayor Conrad objected to the building proposed as a home for the orphans, declaring it unfit for the purpose. Mr. Bristol objected to admitting 28 Negro boys into the public school here.

Work of remodeling the building stopped and the place has not been made habitable. The plan of locating the orphanage here has been dropped temporarily. Whether or not it will be reconsidered later when a suitable building is available has not been announced. The city council meets tomorrow night and if such an institution is to be established here, it is expected that application for a permit will be made at the meeting of the council tomorrow night.

The P.T.A. executive board voted last night at its special meeting to write a letter to the city council asking that no permit be granted for a Negro orphanage in this city. Similar opposition was voted by the Woman's club executive board at a recent meeting and also by the American Legion auxiliary it is stated.

## PETITIONS ON BEACH SEWER ISSUED SOON

LAGUNA BEACH, Sept. 8.—Petitions will be circulated shortly in Arch Beach in an effort to secure 10 per cent of the signatures of registered voters on a plea to the city council to call an election to settle the matter of a sewer system for that district. Following closely on the report filed with the city last week by F. S. Currie, San Bernardino engineer, citizens who circulated the petition asking for the report began the preparation of the petitions in order that the election might be called at an early date.

According to City Engineer Frank P. Gowen, there is almost no opposition in Arch Beach as to the need of a sewer, but there is some difference of opinion as to whether it be installed under the 1911 act, which calls for an assessment on a front foot basis, or under the 1927 act, which calls for a bond issue, with assessments levied on the assessed valuation of the land, disregarding the improvements. There also is some difference of opinion over some features of the plans submitted by Mr. Currie.

Mr. Currie submitted three plans, two of which called for settling basins and outfall sewers in the Arch Beach area, and the third, which he recommended, a complete modern treatment plant in Laguna canyon with the effluent carried out into the ocean through the present outfall at the foot of Jasmine street.

There is talk in Arch Beach of calling a mass meeting to be addressed by Mr. Currie and other engineers, at which the whole matter can be thrashed out.

Councilman George Wilson and some others have expressed opposition to Mr. Currie's plan of having seven pumping stations along the ocean front to pump the sewage from the collecting lines below the highway, or ocean side, to the main line, which will follow a line between the highway and Glendale street.

Mr. Gowen pointed out that other sections of the city, in addition to Arch Beach, may be included in the district, which would take in Cody Heights, a portion of Temple Hills and other areas that were contiguous to, but not included in, the central sewer system. The total area contemplated in the petitions would comprise about 75 per cent of the city's area of 1100 acres.

## AWARD CONTRACT ON CLUB BUILDING

BUENA PARK, Sept. 8.—Earle Dow of Buena Park was awarded the contract for building the new Woman's clubhouse at a meeting of the trustees of the club in the home of Mrs. H. E. Warren on West Ninth street Saturday afternoon. The contract price is \$7893. Other bids submitted were \$8017 by R. LaRue and \$8745 by G. F. Battelle.

Buena Park men who were awarded sub-contracts are John Mitchell, wiring; M. Grunde, painting; C. J. Dunton, plastering, and James B. Dunbar, plumbing.

The building will be of stucco, Spanish architecture, with tile roof, 42 feet by 88 feet, and will include an auditorium with lounging room, stage, stage dressing rooms, kitchen, ladies' vanity room, smoking room and office. A patio is a feature of the side entrance on West Eleventh street.

The plans and specifications were prepared by Edward W. Thurman of Buena Park.

## HIT OIL AT 1900 FEET IN BEACH WELL

NUEPORT BEACH, Sept. 8.—The Nuell company is reported to have struck an oil sand at the depth of 1900 feet in its second well on the bluff at Newport Beach, just off the coast highway at the west entrance of the city. The well is said to be good for 140 barrels a day.

W. H. McCaslin has been able to bring into the bridge in his deep test well at Twenty-first and Olive in Huntington Beach and has cut out nearly 40 feet of the bridge which is choking the well some 400 feet off the bottom. Considerable gas is said to be coming from the well and there is a good oil showing. McCaslin stated Monday that he was confident he would eventually ball out the obstruction and bring the well in as a producer.

## H. B. YOUTH ILL

HUNTINGTON BEACH, Sept. 8.—David Hasson, who was operated on three weeks ago at St. Joseph's hospital for appendicitis, is critically ill. A blood transfusion was given in an effort to save the boy's life.

Fishing fans will soon have a chance to see how the experts catch their swordfish. R. L. Hall, of Los Angeles, a summer resident here, who caught a 108-pound marlin with light tackle Sunday, had

## ANGLERS SPEND BUSY DAY WITH BIG SWORDFISH

NUEPORT BEACH, Sept. 8.—Anglers celebrated Labor day here by bringing in seven swordfish, the largest number for any day of this season, and this is by far the best fishing season ever experienced in and about this city.

A. E. Freeman, of Los Angeles, furnished the big sensation of the day when he landed a 233-pound broadbill. It was the first broadbill swordfish brought in here by hook and line this year, according to Steve Smith, official weighmaster for the Balboa Angling club. Freeman hooked the big fish from his own boat, the Petrel.

Today's haul brought the number of swordfish caught in nearby waters and brought in here this season up to 78. Of these 78 were marlin and one broadbill.

Fishing fans will soon have a chance to see how the experts catch their swordfish. R. L. Hall, of Los Angeles, a summer resident here, who caught a 108-pound marlin with light tackle Sunday, had

## CHICKENS, TOOLS TAKEN BY THIEVES

ANAHEIM, Sept. 8.—Joaquim Tobias, who takes care of the Elwin C. Kendrick home at 185 West Center street, called the police station Sunday night and told officers that he had heard noises around the place and believed that someone was breaking into the place.

However, unusual hauls of yellowfin tuna, skipjack, king dolphin and other gamey fish are being made almost daily, and fishing is fine at the piers and barge.

## Spanish Village Legion Auxiliary Shows Contest Cup

SAN CLEMENTE, Sept. 8.—The American Legion auxiliary has on display at the chamber of commerce office in the Ed Bartlett building the cup won for mobilization of the unit at the last state mobilization contest held a few months ago. The cup was presented to the auxiliary by the police station declaring that a man had backed into his car, broken both headlights and had left the scene without stopping.

The San Clemente post won from every auxiliary post in the state.

## CIRCUS TICKETS GIVEN TO BOYS AND GIRLS FREE!

## Sells Floto Big 3-Ring Circus

SHOWING SANTA ANA SATURDAY, SEPTEMBER 12th

MUTT AND JEFF—They Can Sue Him If He's Insured

## DISSATISFIED WIVES TAUGHT HOW TO SHOOT

PARIS—(U.P.)—Montmartre is about to introduce another novelty into its famous network of streets. The novelty is to be a series of new shooting galleries for women only with the slogan written above them, "Homicide Made Easy," or "Every Wife her Own Sharpshooter."

It is reported that, instead of revolving balls, and rows of pipes and rabbits, and the little jet of water on which an aluminum fish is balanced in the old shooting galleries at fairs and city amusement parks, the new galleries will be equipped with the silhouettes of men, standing, sitting, lying down, and in every conceivable pose both relaxed and tense. There will also be silhouettes which will have a superficial resemblance to practically every type of husband so that the woman may take her choice as to the one that most resembles her spouse. Vital spots are to be marked with the letter X for sure aim.

Learning to handle a pistol has become the vogue in Paris and the women are going at the business of a perfect aim with seriousness. The new shooting galleries are fitted out with complete assortments of firearms, including rifles, revolvers, and a section labelled "Tirage Americain," is a sub machine gun set up on a tripod at the level of a woman's shoulder.

French Women Conservative

The manager of one of these establishments says that he does not anticipate much rifle and machine-gun trade because the French woman is conservative. She does not readily take up to novel methods. "Later perhaps," he added, "she will take up the machine-gun and grenade. Today the revolver is her favorite."

There will be a professor of shooting in charge and several methods of husband-punting will be taught, including the premeditated murder, with long careful aim, or the more snappy "crime passions" which requires a quick shot and unsteady hand. The professor will teach the use of the Maxim silencer for rare cases and an extra charge will be made for rare cases and an extra charge will be made for the instruction. Fees are reported to be reasonable, however, and the length of the course, according to one professor, "depends on the temperament of the pupil. Also on the number of bullets fired."

Diplomas will be awarded those who pass their final examinations, stamped with guarantees to unmarried as well as married women, for success in their enterprises. It round figures the cost of the course will amount to \$10.00.

September 5

COURTNEY ORANGE COUNTY TITLE CO., DEEDS

FORT WORTH, Texas.—It was feared for a time that the 96th District Court would be delayed for some time due to Judge Hal Lattimore being called for jury duty.

There will be a professor of shooting in charge and several methods of husband-punting will be taught, including the premeditated murder, with long careful aim, or the more snappy "crime passions" which requires a quick shot and unsteady hand. The professor will teach the use of the Maxim silencer for rare cases and an extra charge will be made for rare cases and an extra charge will be made for the instruction. TOTAL IN ACRE FEET . . . . .	144,560

SOMEWHERE OUT THERE

Santa Ana, and in fact all Southern California, is watching with unusual interest the flight across the Pacific by Don Moyle and C. A. Allen.

Santa Ana is more than ordinarily interested due to the fact that both Moyle and Allen received their transport licenses in this city. Both are graduates of Eddie Martin's Airport and also members of Eddie Martin's Pilots association.

Both young men worked in Santa Ana while they were winning their wings. One sold washing machines and the other sold motorcycles. With their earnings they completed their flying course here and then moved to Los Angeles where they began taking their flying seriously which culminated in plans for a flight from Tokio to Seattle.

Glory will come to the two youths should they successfully complete their endeavor. Glory and profitable publicity will come to Santa Ana and Southern California. The young men will receive a total of \$75,000 in cash should they bring their plane down at Being Field in Seattle without making a stop en route from the Japanese capital.

Today they are flying over the vast expanses of the north Pacific ocean.

With them are the well wishes and prayers of their hundreds of friends in Orange County and the rest of the Southland.

INFANTILE PARALYSIS

The Eastern seaboard, especially New York state, has been greatly stirred by a scourge of infantile paralysis. This dread and baffling disease attacks children and young people, and leaves many of them with a long heritage of disability if it does not end in death. It is such a subtle disease, and so little is known of its nature and its cause, that all manner of precautions are being taken to isolate the victims of the dread disease, and to prevent the contact of young people with any one who may have been in contact with it.

The Rockefeller Institute for Medical Research is bending its energies to ferret out the nature of the microbe which causes the disease and to devise some way of combating it. It has been discovered that one who survives an attack of this disease becomes immune through life, and the serum taken from the blood of an adult who once had it may possibly be used to heal the victim.

Thus far, the disease has been rather baffling, and it is not yet clear how it is transmitted. If the virus could be developed outside the body, as the virus of many other diseases which were once so destructive of life and health, the disease would soon be conquered. But thus far this has been impossible. It is to be hoped that the cure for this dread disease will soon be found.

"WHEN GERMANY SNEEZES"

Some one has made the statement that when Germany catches cold, the whole of Central and Eastern Europe begins to sneeze. So vital in the European political and domestic economic is Germany. Only one nation of that region, Poland, has escaped the results of the German financial crash.

It illustrates what we have pointed out again and again on this page, how closely the nations of the world are related to each other. The time of a provincial nationalism in trade and commerce and finance has long since passed. And yet there are millions, perhaps, not only in the United States, but also in other nations, who have that great fact still to learn. They have an idea that a nation, especially one as strong and self-sufficient as our own, can go it alone. When a nation as strong as England finds itself in a financial jam, necessitating the borrowing of over \$600,000,000 to conserve its financial integrity, it is not for any nation to declare its independence from the rest of the world. As Mr. Coolidge's laugh had at platitude has it, "We all live in the same world," and we might just as well recognize that fact.

ORANGE FED CHICKENS

Dried cull oranges are now being used for chick feed. The report of the new chick feed does not include its wondrous effect on the chicks. However, roast fowl stuffed with a fruit dressing is most delectable, so chicks stuffed with dried oranges may produce eggs with a very fine flavor.

COLONEL LINDBERGH'S TRIP

The whole world has been interested in the round-the-world trip of Colonel Lindbergh and his wife. It was rather expected that he would repeat the spectacular exploits of former years. But in this he and his admirers must be greatly disappointed. For the first time in his spectacular career he has met with grim obstacles which at times threatened the total failure of his trip. All of these were surmounted, but not without substantial assistance from the government to which he was an accredited ambassador of good will.

The world has been very anxious to see Lindbergh, and the reception in Japan and elsewhere has been of the nature given to the titled and the mighty. We believe that the main purpose of the flight was not a purposeless adventure. Rather, was it undertaken for the purpose of mapping out a route to the far Pacific for commercial purposes by air. As such it was a most commendable enterprise, and it is a matter of regret that the difficulties of the trip have been so great that nothing has been gained commercially as a result of it. Whatever may have been the motive of the trip which gave Colonel Lindbergh his international reputation, the purpose of all subsequent trips has been to further a cherished ideal, and that is to make transportation by air a safe and profitable commercial business. Because of that we regret that the trip was not more successful.

NEW ENGLAND BUSY

It is strange that the section of the country which has been marked for many years as a back number economically is now the busiest place in the whole country. The textile mills in some of the cities of New England are working night and day in three eight-hour shifts. Shoes also have taken an encouraging start.

It has been said that the end of every depression heretofore has been marked by the revival of the textile industry. We hope that holds true in this depression, for men everywhere are scanning the business horizon for some encouragement which will end the night of business darkness.

Speaking of Beans

Oakland Tribune

Taking the word of the New York Times, California's most widely known crops, aside from tourists and climate, are redwoods and orchids.

Perhaps so, but the weeks have a way of inserting into the statistics other impressive stories of huge totals achieved by the fertile fields. The nation is aware that, by hundreds of thousands of carloads, we ship our produce to the markets. Right now, one subject in beans. From the black-eyed bean to the baby lima through a great variety the State is furnishing beans to its Uncle Samuel. Last year's total of 4,159,000 bags led all other states, including Michigan, which headed the list in 1929. As a bean state we are on top.

The one who thinks of Boston in connection with the succulent bean is reminded that the beans favored by that discriminating city, the very center of refinement in culture and baked beans, are the ones from this State. Now beans grow in some quantity in that historic area over which marched the armies of the Revolution, and Boston is also a center of patriotism and loyalty, but between localities and the good old baked bean in the brown pot, Boston looks to the West.

That is not all. Pink beans—known as Chile beans though they are not the genuine Mexican Chile bean, find a market in Cuba and Porto Rico adding to the California export total, though from sixty to sixty-five per cent of the crop is consumed within the state. And this state is one of the three places in the world where large lima beans are grown for commercial purposes, Chile and Madagascar being the others.

How the Retail Dollar Spreads Out  
In Business

Riverside Enterprise

Where is spent the retail dollar?

The census bureau answers this question for the first time in history. It set up elaborate machinery to determine various facts about business so that in the future there will be a definite way to determine danger signals that precede major business recessions. And in the course of this work many facts were developed.

Food leads in the call on the retail dollar. Food sales amounted to 22.60 per cent of the retail dollar in the year 1920. The automotive industry took 19.05 per cent. General merchandise took 14.27 per cent.

To get these figures the Government took the census of the business conducted by 1,549,368 stores in 1929 and their sales were in excess of 50 billion dollars.

It is interesting to note that the automotive industry becomes the second largest dealing in retail business. This has been accomplished in not more than a quarter of a century. The figures have not yet been announced as to how many people are employed. And to those engaged in the retail end of the automotive industry, including sale of automobiles themselves and all accessories and gasoline, will be added the workers in the manufacturing end.

Farmers Feeling Better

The Pasadena Star-News

It is better news when a farmer speaks up in an optimistic tone, than may be found in all the encouraging words of advice given to agriculture by the expert boards.

Within the week California has heard from the grape men and the raisin men to the effect that the surplus is gone and better days are in sight. Now come the peach men with an assertion that in this industry has been accomplished that which has been impossible in many others. The plan to reduce the acreage by uprooting the unprofitable orchards has worked out and the estimate of nine million acres, made by the cling peach control committee, will probably be a little large. Concentrated action along lines to prevent a surplus and hot weather have changed the situation. With the crop nearing maturity the growers are feeling better than in weeks.

Another industry which found the first half of 1931 trying is the dairy one. Right now the prices are advancing and prospects are considered better than they have been for nearly a year. When things go hard with the California dairy men he works so much the harder, perfects his methods, and discovers how to increase his output without sacrificing quality. There has been a steady gain in butterfat production and the fact speaks volumes for the intelligence and methods of the industry.

Bachelor Buttons!

Thoughts On Modern

Life

By GLENN FRANK

EDUCATION AND CIVILIZATION

The political dilemmas and the economic disruption that beset the life alike of Europe and of the United States cannot, as I have said again and again, be explained by any uncontrollable factors in the natural environment or by any shortage of material essentials in the economic life of the world.

Even drought-stricken areas have their sky-lines fettered with elevators jammed with futile surpluses and warehouses bursting with supplies that mock the breadlines of the unemployed.

Nature has not failed us!

Nor has the industrial system fallen down on its job of quantitative production!

It is obviously and solely, as I said only the other day, a blunder if not a breakdown in social management with which we have to do.

When the analysis of our time is complete it will show, I think, that our educational system has had a definite part in bringing about the current distraction.

When we have really penetrated to the heart of the present difficulty in which the whole western social order finds itself, we shall find, I am sure, that specializa-

tion, which has made our civilization,

has unmade the education to which we looked to make us masters of our civilization.

The bitter fruits of this specialization are painfully evident in a generation of leaders whose fingers have all proved thumbs in the moulding of those general policies of political, social and economic organization which in the end make or break the separate enterprises.

Western education has been superbly successful in training western man for the technical execution of his separate enterprises.

It has tragically failed to fit him either for the practice or the appreciation of realistic statesmanship in the ground plan and govern-

ance of his social and economic order.

It is important for us to see

just how a good thing like

specialization could and has produced such bad results in our educational system.

Tomorrow I want to paint a

picture of the way specialization

came to its present sovereignty in our education.

OUR CHILDREN

By ANGELO PATRI

RESPECT FOR JUNIORS

Everybody has heard about respecting for elders. We are only beginning to hear about having respect for our juniors. Yet our juniors are entitled to respect. Their rights, their feelings, their tastes must be respected if we hope to have them respect us at all.

"We're driving over to see Gram. Eileen. Want to come along?"

"I think not Mother. I'd rather stay home."

"Very well. I'll be home in time for tea. Good-bye. I hope you have a pleasant time, child."

"Thanks, I hope you do, too. Give my love to Gram."

Mother and Aunt Kate walked down the path to the car. Aunt Kate settled herself behind the wheel, she always drove having rooted only to being driven.

"I do think, Maud, that you should have made that child come along with us."

"Why? She didn't want to come. Why make her? Anyway, she is seventeen years old. You wouldn't force a girl of that age to do anything like that, would you?"

"If she was a daughter of mine, believe me she'd come when I called her."

"You don't understand, Kate. Eileen is grownup. I'd no more think of making her come along with me than I'd think of making you come."

"That's very different, Eileen is a child. She should not be left alone in the house. How do you know where she is now? How do you know what she is planning to do the minute your back is turned? You can't be up to the tricks of these young girls. Believe me, if she was mine she'd be different."

Or for instants if you are conscientious you won't leave anyone to another station while a visiting tawk is going on, on account of not wanting to cheat the radio by listening to all the music and stuff for nothing.

For instants if you are very polite in other peoples houses you always say "Very nice each time the radio gets through doing something, on account of not wanting to make the people that live there think they've got a radio that anything bum could come out of."

Or for instants if you are natural and always act like you are, you get up and go to bed after about a half a hour.

One way to enjoy the radio is to watch the different expressions of the different people listening to it, such as sleepy, nervous, absent minded, patient, paneful or dozy, depending on what the radio is doing and whether they feel more like dancing or listening to a lady sing all high notes or hearing some man tell the correct time somewhere where it's the wrong time here.

Yesterday we mentioned a hitherto unheard-of event—the statement by the President of a large savings bank that this is the time for some depositors to take money out of the bank and spend it. The name of the President is Walter H. Bennett.

We do not know why the Bennett family should be endowed with uncommon common sense; but we do know that Professor Bennett said, in the Yale Review, "If I save, it is in order that I may spend; if I work, it is in order that I may enjoy the fruits of my labor."

Suppose, says Professor Bennett, that after I have saved enough money to meet all probable needs, I go to the banks and say, "Please let me have my money; the time has come when I want to spend it."

Picture the dismay on the face behind the brass grille!

"For twenty years, the bank might have been telling me that saving was for my children or for my old age; yet now, when I took it at its word, the establishment would have a collective apoplexy."

"Why? Chiefly because to a banker, the idea of spending money for enjoyment is a sort of sacrilege. Money is to be saved. Capital is to breed interest; interest is to be added to capital, which is in turn to produce more interest, and so on, and so on. Far away on the horizon of progress, he sees a perfect Everest of capital, soaring into the inane. Sublime spectacle!"

Already the banks of the United States have piled up mountains of money. Bank charts show the picture. So do the heaps of gold reserves. And the lowest interest rates in a generation of banking reveal the same picture from another angle.

The Bennetts are right, both the Professor and the Banker. The time has come when those who can afford to spend, should spend freely. There is no other way for prosperity to come back.

Thieves were particularly active in this city Saturday, three jobs being turned successfully and one
